19. ORGANIZATIONAL CONFLICT OF INTEREST

a. The purpose of this clause is to ensure that:

- (1) In providing services to the Buyer and its customers under this Order, the Seller's objectivity and judgment are not biased because of its present and/or future, financial, contractual, organizational, or other interest;
- (2) The Seller does not obtain an unfair competitive advantage by virtue of its access to non-public Government information regarding the Buyer's and Government's program plans and resources;
- (3) The Seller does not obtain any unfair competitive advantage by virtue of its access to proprietary or competition sensitive information belonging to others; and
- (4) The Seller ensures no bias or unfair competitive advantage exists while aggressively addressing any perception issue that may arise.

b. Definitions

- (1) The term "organizational conflicts of interest" means that a relationship or situation exists where the Seller (including chief executives and directors, to the extent that they will or do become involved in the performance of the order, and proposed consultants or lower-tier subcontractors where they may be performing services similar to the services provided by the prime) has past, present, or currently planned interests that either directly or indirectly (through a client contractual, financial, organizational, or other relationship) may relate to the work to be performed under a Department of Defense contract which (i) may diminish its capacity to give impartial, technically sound, objective assistance and advice, or (ii) may result in it having an unfair competitive advantage. It does not include the normal flow of benefits from the performance of the order.
- (2) For the purposes of this special order requirement, the term "affiliates" means business concerns which are affiliates of each other when either directly or indirectly one concern or individual has a significant business relationship of any type with another business entity or company.
- (3) The term "Seller" as used in this clause shall include (i) the corporate or other entity executing this order with the Buyer as well as such entity's parent, subsidiary, other affiliated, and successor entities and (ii) said Seller's lower-tier subcontractors who, (a) operate AEDC test or evaluation facilities or (b) handle, receive, reduce, interpret, or transmit data obtained, utilized, or produced in conjunction with testing or evaluation.
- (4) For the purposes of this special order requirement, "Proprietary Information" shall mean information that a company desires to protect against unrestricted disclosure and unauthorized use, and shall include (i) that written or recorded information which a company designates as proprietary by appropriate stamp or legend at the time of first disclosure, and (ii) that information which is orally or visually disclosed to the Seller and which is identified as proprietary at the time of disclosure, is promptly reduced to or identified in writing and marked as proprietary, and forwarded to the Seller.
 - (a) Proprietary information shall not include information which (i) was known to the Seller prior to its receipt from a company or the Buyer; or (ii) was independently developed by the Seller without access to a company's proprietary data; or (iii) is or becomes public knowledge without the fault of the Seller; or (iv) has been lawfully obtained by the Seller without restrictions on disclosure from a source other than a company or the Buyer/Government; or (v) is or becomes available to a third party from a company on an unrestricted basis.

- (b) Other limitations set forth in this order may apply to the use of information and data. The burden of proof as to the applicability of any of the above exceptions shall rest on the Seller.
- c. To avoid, neutralize, or mitigate the potential conflict of interest, the Seller shall not, during performance of the Order, engage (as a prime contractor, subcontractor, supplier, or consultant) in any design, development or production of aerospace or other systems or major subsystems of a type normally developed, tested or evaluated in AEDC facilities without an approved OCI Mitigation Plan. The Air Force Contracting Officer may grant waivers through the Buyer if a potential/perceived conflict clearly does not compromise the Government's fundamental intent to safeguard against (i) conflicting roles which might bias the Seller's judgment/objectivity; (ii) providing the Seller an unfair competitive advantage in Government acquisitions; and/or (iii) constraining the transfer of critical proprietary information required to effectively execute the test mission at AEDC. Requests for waiver under this clause shall be directed in writing to the Buyer and shall include a full description of the requested waiver and the reasons in support thereof. If it is determined to be appropriate and in the best interests of the Government, the Contracting Officer shall grant such waiver in writing and such waiver will be provided to the Seller by the Buyer.
- d. When the Seller has access to proprietary information of other companies, the Seller must agree with each company to protect this information from unauthorized disclosure. The Seller shall enter into written agreements for the protection of the proprietary information of others and provide these agreements to the Buyer for review and approval by the Buyer's Purchasing Representative. The Seller shall not be permitted to use the information in supplying the system, or its components, procured either by formal advertising or negotiation, as a direct result of that study, test or advice. In addition, the Seller is not permitted to use the proprietary data in performing, for the Department of Defense, any competitively obtained contract for any additional study or studies in the same or a closely related field.
- e. The Seller must thoroughly inculcate in its employees, through formal training in company policies and procedures, an awareness of the philosophy of FAR Subpart 9.5 to the end that they will be disciplined in the absolute necessity of refraining from divulging proprietary data, trade secrets, confidential information or restricted data from other companies received in connection with work under this order to any unauthorized person.
- f. The Seller shall require its employees to sign written agreements prohibiting proprietary information disclosure except in accordance with a Buyer-approved plan. This written agreement shall in substance provide that such employee will not, during their employment by the Seller or thereafter, disclose to others or use for their own behalf, trade secrets, confidential information, or restricted data received in connection with the work under this Order. The agreement will acknowledge the employee is trained regarding handling proprietary information and discuss penalties for violations.
- g. If the Seller discovers an actual potential organizational conflict of interest not previously considered and adequately mitigated under this clause and the Buyer-approved OCI Mitigation Plan, the Seller shall make a prompt and full disclosure in writing to the Buyer. This disclosure shall include a description of the action the Seller has taken or proposes to take, or actions recommended to be taken by the Buyer/Government, in order to avoid, neutralize or mitigate the conflict.
- h. The Seller shall report any violation or suspected violation of this clause or the Government-approved OCI Mitigation Plan, whether by its own personnel or those of lower-tier subcontractors, to the Buyer. This report shall include a description of the violation and the actions the Seller has taken or proposes to take to mitigate and avoid repetition of the violation. The Seller shall routinely monitor its proposed business development and shall discuss any real or perceived OCI issues with the Buyer and affected AEDC customers to proactively resolve and/or mitigate those potential OCI issues. After conducting such further inquires and discussions as may be necessary, the Buyer and the Seller shall agree

on an appropriate corrective action, if any, or the Buyer shall direct such action, subject to the terms of this Order.

- i. OCI violations are a significant **contract** performance issue. Violations of the OCI Mitigation Plan or this clause may have consequences ranging from award fee decrements, order termination, suspension and debarment, or other appropriate remedies or administrative actions.
- j. The Seller may propose changes to the approved OCI Mitigation Plan. Such changes are subject to the mutual agreement of the parties and will become effective only upon incorporation by order modification or written approval of the revised plan by the Buyer.
- k. The Seller shall include paragraphs (a) through (j) of this clause in every order, purchase order, or other agreement. Exceptions must be approved in writing by the Air Force Contracting Officer through the Buyer.

The General Provisions Part I take precedence over the Government Provisions Part II.
